Dallas, Texas

Dear Mr. Dilley:

I was delighted to receive your letter of the 23rd in which you enclosed key to the Treatment Center.

You certainly owe the Society no apology for any delay as far as the Pipe Insulators are concerned because I informed our Directors at our recent meeting of the splendid cooperation you through the various crafts have given our Society.

In fact, a motion was made to thank you because the carpenters and the painters did a lot of work at the Center during the summer months and all of us appreciate your wonderful assistance.

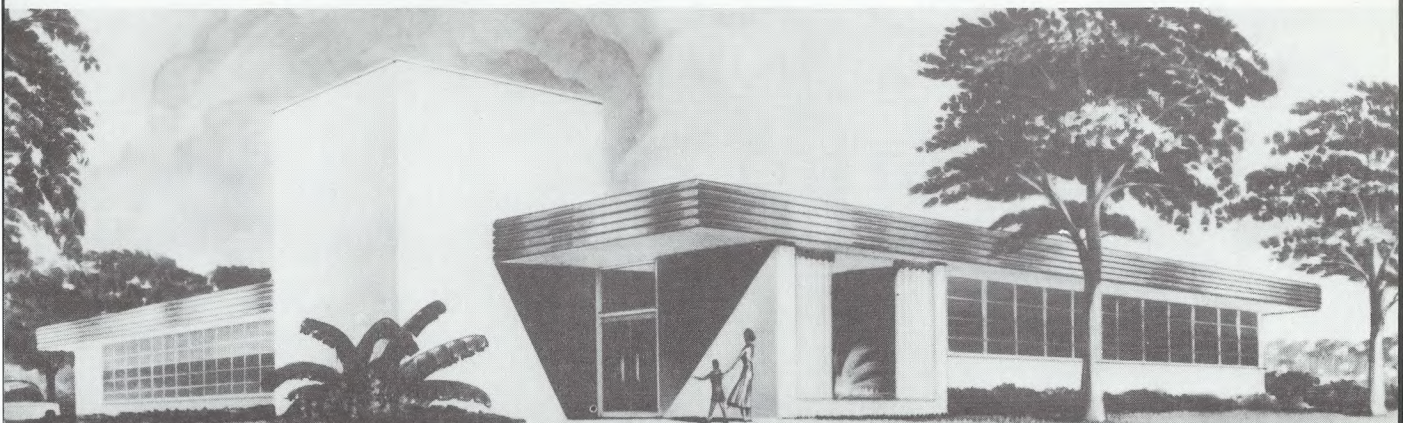

Kindest regards.

Sincerely yours,

R. L. Thomas  
President
