Dear Charlotte:

Enclosed is an update to the Boarding Home Directory that we compiled and distributed in December of last year. We have added three homes to the roster, even though we don't have much information on them. One of the reasons we added them was because we have received police complaints about two of them.

We have also added additional information to the information sheets on a number of other homes. This new information can be found under "environmental comments" on the back sides.

Please let me know if you have additional information or other homes to add to this directory. I discovered that the two boarding homes that burned recently were not even in our directory, at least not at those addresses.

Thanks for your help.

Sincerely,

Christine B. Siegfried
Public Policy Specialist
