### MEMORANDUM

December 23, 1975

TO: Selected University Presidents

FROM: David T. Kelly, Head, Division of Program Development

SUBJECT: Emergency Approval of Off-Campus Classes

In accordance with the Coordinating Board's rules for the approval of off-campus credit courses adopted on October 16, 1975, the Commissioner of Higher Education may approve "extension" credit courses, and he may approve "resident" credit courses in cases of emergency when the need is established after the reporting deadline. The staff has reviewed several requests for such courses, taking into account the need and considering whether the course is a duplication of one locally available. In these cases, as with those approved by the Coordinating Board on December 11, the needs of the local constituent groups appear to require the services of the proposing institution for the spring semester only. In some cases there is no local institution; in others it will be necessary to work out a transition from one institution to another in future semesters.

Commissioner Reed has approved the following courses for the Spring Semester only, 1976:
